Marcus Hultberg

Coaching and matching towards work and studies

After my bachelor's degree in behavioural science I became an education manager at a vocational college in IT, where I coached and guided 100 students ahead of their transition into working life. Since 2020 I have worked with recruitment and matching at consulting companies, where I assessed candidates against employers' requirements and was their point of contact throughout the process. I have worked in a structured way in recruitment systems and followed up my work against set targets. I want to use that experience to help jobseekers find their way to a job or a course of study that suits them.

Recruitment Consultant

Jun 2024 — Jun 2026

Mpya Sci & Tech · Gothenburg

Recruitment and consulting firm specialising in science, technology and engineering.

Matching the right person with the right workplace while acting as an advisor to hiring managers on competence and cultural fit.

- Managed full-cycle recruitment processes, from needs analysis to final selection, across multiple roles, varying from developers to engineers
- Coordinated and structured interview processes, including scheduling, preparation, and stakeholder communication
- Acted as main point of contact for candidates, ensuring a professional, responsive, and engaging candidate experience
- Worked continuously in ATS systems to manage candidate data and ensure accuracy throughout the process
- Wrote and published job ads based on client needs, ensuring clarity and relevance
- Proactively sourced and engaged candidates, maintaining a strong talent pipeline
- Advised hiring managers on recruitment processes, timelines, and candidate evaluation
- Contributed to improving recruitment workflows and ensuring structured processes

Course Developer

Sep 2023 — Jun 2024

Simployer · Gothenburg

Leading Nordic HR tech company providing HR systems, payroll solutions and training.

Developed and improved training content in HR for a leading HR system with a strong focus on the employee experience.

- Developed and improved courses within HR and Learning & Development
- Ensured content was up to date and aligned with current HR trends and needs
- Collaborated with subject matter experts to create relevant and high-quality training
- Planned and executed conferences and training sessions focused on participant value
- Improved course materials and pedagogical structures
- Integrated market insights and research into training content

Business Manager

Apr 2022 — Sep 2023

A Society · Gothenburg

IT consulting firm connecting tech talent with companies across Sweden.

Responsible for recruitment and matching of IT consultants alongside ongoing HR support in a fast-moving consulting environment.

- Managed recruitment processes for IT consultants, ensuring accurate competence matching

Education

BSc. Behavioural Science with focus on IT environments

2016 — 2019

Umeå University

Bachelor's degree focused on human behaviour in digital and technical organisations: a solid foundation for People & Culture work in the tech industry.

Certifications

Certified Education Manager

2020

Myndigheten för Yrkeshögskolan

Certification in education management focused on vocational higher education, directly applicable in L&D roles with emphasis on pedagogical planning and course design.

Languages

Swedish, native

English, fluent

How I work

- Structured and process-driven
- Advisory to managers and stakeholders
- Builds from zero
- Pedagogical, teaches what I build
- Comfortable with many parallel processes
- AI-native day to day

- Coordinated communication between clients and candidates throughout the hiring process
- Provided HR-related support and maintained ongoing contact with consultants
- Designed structured onboarding processes to improve engagement and retention
- Managed multiple parallel processes in a fast-paced environment

Talent Acquisition Lead / Consultant Manager

Nov 2020 — Apr 2022

ZoCom · Gothenburg

Educational product and innovation company in the IT sector.

Part of the management team with full responsibility for talent acquisition and a consultant group of 15+ people at an IT consultancy.

- Led the company's talent acquisition strategy, including employer branding, process optimisation and ATS implementation
- Managed recruitment processes end to end, from screening and interviewing to onboarding of new employees
- Conducted personnel development activities and HR-related responsibilities for a consultant group of 15+
- Designed and executed a structured onboarding framework for new hires
- Created internal workshops and learning sessions, including gamification methodology training
- Helped build a career development programme aimed at supporting junior talent in entering the IT industry
- Contributed to internal organisational development by helping shape and run an internal Learning Management System (LMS)

Education Manager / ICT Manager

Jun 2019 — Oct 2020

IT-Högskolan · Gothenburg

One of Sweden's largest providers of vocational higher education within IT and tech.

Led education programmes at one of Sweden's largest vocational IT schools and supported students in their transition into the tech industry.

- Led and developed education programmes in close collaboration with the labour market
- Ran the programmes' steering group work
- Handled the admission of students
- Drove the programmes towards set targets
- Coached and guided students in their career journey into the IT industry
- Worked with competence supply by matching education to market needs
- Participated in recruiting teachers and ensured relevant competence
- Built and maintained partnerships with companies and external stakeholders
- Secured internship placements and supported students in transitioning to working life
- Improved internal communication flows and developed LMS structure

First Line Support / Store Sales

2013 — 2018

Telia Company · Gothenburg / Umeå

Sweden's largest telecom provider, with a broad range of services.

Customer service and sales in first line support and in store, where I also supported the onboarding of new colleagues.

- Supported the onboarding of new employees through coaching and by taking part in recruitment
- Contributed to improved knowledge sharing and ways of working within support
- Worked with customer service by phone, chat and email
- Developed strong communication and problem-solving skills
